

Andrew Sumnicht, MD

After practicing in a large ophthalmology clinic in Seattle, Dr. Andrew Sumnicht came to Cascadia Eye to be a part of local, independent practice.

Dr. Sumnicht graduated magna cum laude from Whitworth University in 2014 and moved to Loma Linda University where he earned his Doctor of Medicine (MD) in 2018. He did his Internal Medicine Internship in 2019 and completed his Ophthalmology Residency in 2022. He is board-certified by the American Board of Ophthalmology.

Dr. Sumnicht specializes in cataract surgery, including complex cataracts with multifocal (PanOptix, Vivity) and toric lenses, and refractive lens exchange (RLE). His other clinical interests include medical retina injections and laser treatments, minimally invasive glaucoma surgery (MIGS) and management of glaucoma, and pterygium removal. He is fluent in both English and Spanish.

Family and Personal Passions

Originally from Wisconsin, Dr. Sumnicht has learned to be a Seahawks fan. He and his wife train for marathons and triathlons together, play with their daughter, and are always interested in trying new food, competing with a board game, skiing in the winter or visiting a lake in the summer.
