

# MEET OUR DOCTORS

**Dr. C. Dan Siapco** is the senior partner at Cascadia Eye and a board-certified ophthalmologist who graduated from Loma Linda University School of Medicine and completed his residency at the University of Pittsburgh. He specializes in cataract surgery with extensive experience in presbyopia-correcting lenses and serves as Medical Director of our surgery center, bringing years of surgical expertise and leadership to the team.

**Dr. Carlindo da Reitz Pereira** is a partner at Cascadia Eye and a board-certified ophthalmologist and fellowship-trained cornea specialist who completed his ophthalmology training at Loma Linda University. While highly skilled in corneal surgery, he also enjoys cataract surgery with premium IOLs, refractive lens exchange (RLE), and refractive procedures including LASIK and PRK.

**Dr. Charles Maddux** is a partner at Cascadia Eye and a board-certified ophthalmologist who completed his medical education and residency training at Loma Linda University. He specializes in cataract surgery with premium lenses, minimally invasive glaucoma procedures, laser treatments, and comprehensive medical eye care.

**Dr. Ernesto D. Golez III** is a glaucoma specialist who earned his medical degree from the University of the Philippines College of Medicine and completed fellowship training at Massachusetts Eye and Ear Infirmary, specializing in advanced glaucoma care, laser procedures, and comprehensive medical eye exams.

**Dr. Jean Kassem** is a board-certified ophthalmologist who earned his medical degree at the University of Heidelberg and completed his residency at Tulane University, specializing in oculoplastic, orbital, and reconstructive eye surgery.

**Dr. Roslyn Howell** earned her Doctor of Optometry degree from Pacific University College of Optometry and specializes in ocular disease management, contact lens fitting, and comprehensive eye care.

**Dr. Jared Rasmussen** earned his Doctor of Optometry degree from Pacific University and specializes in ocular disease management, post-operative care, and contact lens fitting.

**Dr. Roy Gordon** earned his Doctor of Optometry degree from the University of Missouri St. Louis and specializes in ocular disease management, post-operative care, and contact lens fittings.

**Dr. Maria VanNurden-McKittrick** earned her Doctor of Optometry degree from Pacific University and specializes in primary eye care, disease management, contact lens fitting, and post-operative care.
